Description:

Global Drones Market Overview

Drones Market Size was valued at USD 25.9 billion in 2022. The Drone market industry is projected to grow from USD 29.6037 Billion in 2023 to USD 66.012 billion by 2030, exhibiting a compound annual growth rate (CAGR) of 14.30% during the forecast period (2023 - 2030). The rising frequency of cervical spondylosis among corporate workers and the increasing occurrences of cervical injuries in vehicle accidents are the key market drivers enhancing the market growth.

Drone Market Trends

- **Increasing demand for photographic surveillance to boost the market growth**

Drones are also used for various other tasks, including public service missions, aerial photography and videography, internet access in remote locations, and animal surveying and documentation. A few companies primarily offer small drones for agriculture, aerial photography, and data collection.

Due to the growing acceptance of drones in military operations, suppliers are now making drones that can be used for various commercial purposes. Aerial photography, cinematography, and special effects are done with drones in the media and entertainment industries. As drones begin collaborating with other technologies, more changes will manifest. This innovation enables drones to recognize objects in the air and analyze and record data on the ground. Computer vision operates with high performance performed with neural networks and onboard image processing. They could work with 3D printers, robots, and other technologies with AI, sensor analysis, data processing, and drone network capabilities. Due to new product manufacturing innovations, the consumer drone market revenue has experienced a boom.

Additionally, most recent drone model technologies offer high-range control systems that are dependable, safe, and efficient and provide better speed and navigation systems connected to the user's device. Due to the potential demand for drones in nations like Canada and the U.S., North America is the most important regional market. The automation of consumer drones is another way that manufacturers use AI. In February 2022, for instance, Phystech Ventures, a U. S., a New York City-based venture capital firm, reported that USD 5 billion had been invested in drone technology over the previous two years has enhanced the Drone market CAGR across the globe in the recent years.

Drone Market Segment Insights

Drone Type Insights

The drone market segmentation, based on drone type, includes fixed-wing drones, rotary blade drones, and hybrid drones. The fixed-wing drone segment held the majority share in 2022, contributing to the drone market revenue. This is primarily because it can fly for a longer period at high altitudes, and demand for this segment is increasing. Instead, due to its capacity to consistently maintain the visual on a single target, the multirotor segment is anticipated to dominate Drones Market Trends during the forecast period. It may remain for a longer period.

For instance, September 2022: The U. S. Seven of DJI's new drone models have received Declarations of Compliance approval from the Federal Aviation Administration (FAA). Leading manufacturer of drones for use by civilians, DJI is based in China.

Drone Industry Type Insights

The Drones market segmentation, based on type, includes Oil & Gas, Power, and Renewable. The Oil & Gas segment dominated the market in 2022 and is projected to be the faster-growing segment during the forecast period, 2022-2030. This is because these are used in the oil and gas sector for many different tasks, such as inspecting offshore platforms, processing machinery, finding leaks in pipelines and other midstream assets, responding to emergencies, and handling materials. Drones can collect data more efficiently with the help of image sensors or cameras that have visual (RGB), infrared (IR), and lidar (light detection and ranging) capabilities. Additionally, drones equipped with gas detectors can gather information about emissions. These rising Oil & Gas drones positively impact market growth.

Drones Application Insights

The Drone market data has been bifurcated by Application into Inspection, Leak and Spillage Response and Security and Surveillance. The Inspection and Leak and Spillage Response and Security segment dominated the market in 2022 and is projected to be the faster-growing segment during the forecast period 2022-2030. Due to new regulations issued by the Federal Aviation Administration that have made it possible for energy and oil and gas companies to use unarmed aerial vehicles, it is anticipated that the inspection and maintenance segment will hold the largest market share during the forecast period.

Drone Technology Insights

Based on Technology, the Drones industry has been segmented into Hardware and Software. The drone's software is made to direct it as it flies from point A to point B. The Software segment held the largest segment share in 2022. The drone's software component develops into a very complex system to comprehend and connect all of the necessary information. The drone's software runs in a system of layers. The layers are also separated into tiers operating during various time slots. For the drone to function and behave accurately, the layers must be properly combined to control the flight patterns, altitude, and other crucial information. The term "flight stack" or "autopilot" refers to this arrangement of layers.

Drone Regional Insights

By Region, the study provides market insights into North America, Europe, Asia-Pacific and the Rest of the World. Asia Pacific Drone market accounted for USD 11.8 billion in 2022 and is expected to exhibit a significant CAGR growth during the study period. This is attributed to the growing. It is anticipated that the region's recent revisions to drone legislation will spur market expansion. China has become the world's leading producer of drones over the past six years. At the beginning of 2019, there were roughly 1,200 drone manufacturers in China, which controls more than 70% of the civilian drone market.

Further, the major countries studied in the market report are The U.S., Canada, Germany, France, the UK, Italy, Spain, China, Japan, India, Australia, South Korea, and Brazil.

Figure 3: DRONE MARKET SHARE BY REGION 2022 (%)

DRONE MARKET SHARE BY REGION 2022

Source: Secondary Research, Primary Research, MRFR Database and Analyst Review

Europe's Drones Industry accounts for the second-largest market share due to the demand anticipated to be driven by several government initiatives to promote this technology investments and an increase in defense spending because of the rise in terrorism. Further, the Germany Drone market held the largest market share, and the UK Drone market was the fastest-growing market in the European region.

The North America Drone Market is expected to grow at the fastest CAGR from 2022 to 2030. They are being used more frequently in the commercial sector for various operational purposes, such as delivering goods to customers at their specific locations, which is a major factor in the growth of the North American market. Additionally, it is anticipated that numerous manufacturing firms and the growth in research and development will increase the number of investment opportunities for major players in the North American UAV drone market during the anticipated period. Moreover, the US Drone market held the largest market share, and the Canada Drone market was the fastest-growing market in the North American region.

Drone Key Market Players & Competitive Insights

Major market players are spending much money on R&D to increase their product lines, which will help the Drone market grow even more. Market participants are also taking various strategic initiatives to grow their worldwide footprint, with key market developments such as new product launches, contractual agreements, mergers and acquisitions, increased investments, and collaboration with other organizations. Competitors in the Drone industry must offer cost-effective items to expand and survive in an increasingly competitive and rising market environment.

One of the primary business strategies manufacturers adopt in the Drone industry to benefit clients and expand the market sector is manufacturing locally to reduce operating costs. In recent years, the

Drone industry has provided medicine with some of the most significant benefits. The Drone market major player such as Microdrones (Germany), DJI (China), Aibotix GmbH Limited (UK), Drone America (US), Draganfly Innovations Inc. (US), and others are working on expanding the market demand by investing in research and development activities.

DJI (China) Every dream is rooted in creativity. Every concept and innovative development that alters the course of history begins with the creative vision of gifted creators. At DJI, we provide these creators with the necessary resources to realize their concepts. We achieve this by putting an unmatched amount of effort into R&D, fostering constant innovation and curiosity, and concentrating on turning complicated technology into simple gadgets.

Also, Microdrones (Germany) Microdrones' past is a tale of enduring innovation, devoted friendship, and genuine aviation passion. It's also a tale of integration, which is one of Microdrones' greatest assets, and how we've combined the best components to create a whole that is greater than the sum of its parts. Discover a brief history of Microdrones and GeoCue and how these innovative businesses collaborate to help lead the digitalization of the geospatial industries with potent software, tools, workflows, and support that make drone LiDAR and photogrammetry more widely used.

Key Companies in the Drone market include

- Microdrones (Germany)
- DJI (China)
- Aibotix GmbH Limited (UK)
- Drone America (US)
- Draganfly Innovations Inc. (US)
- ING Robotic Aviation (Canada)
- Aeryon Labs Plc. (UK)
- AeroVironment Inc. (US)
- Ascending Technologies Inc. (Canada)

Drone Industry Developments

For instance, July 2022 Flytrex. Received permission from the FAA to expand its business services in Texas and North Carolina. It is an Israeli drone delivery company. The FAA also permitted them to extend their delivery range to two nautical miles. Additionally, the company claimed that it increased its customer base from 40,000 to 100,000 in the United States, demonstrating the impact of advancement on the sector. The market for drone services has expanded quickly, leading many businesses in various sectors to begin investing in drones. Companies that buy drones hope that by analyzing the data they gather, they will be able to cut costs, increase sales, and make wiser decisions.

Drone Market Segmentation

Drone Industry Type Outlook

- Fixed-Wing Drone
- Rotary Blade Drone
- Hybrid Drone

Drones by Industry Type Outlook

- Oil & Gas
- and Power
- Renewable

Drones by Application Outlook

- Inspection and Leak and Spillage Response and Security
- Surveillance

Drones by Technology Outlook

- Hardware
- Software

Drone Regional Outlook

- North America
 - US
 - Canada
- Europe
 - Germany
 - France
 - UK
 - Italy
 - Spain
 - Rest of Europe
- Asia-Pacific
 - China
 - Japan
 - India
 - Australia
 - South Korea
 - Australia
 - Rest of Asia-Pacific
- Rest of the World
 - Middle East
 - Africa
 - Latin America

Table of Content:

Contents	
1 Executive Summary	
2 Market Introduction	
2.1 Definition	23
2.2 Scope of the Study	23
2.3 List of Assumptions	23
2.4 Market Structure	24
2.5 Key Takeaways	25
2.6 Key Buying Criteria	25

3 Research Methodology	
3.1 Research Process	27
3.2 Primary Research	27
3.3 Secondary Research	28
3.1 Market Size Estimation	28
3.2 Forecast Model	29
4 Market Dynamics	
4.1 Introduction	31
4.2 Drivers	31
4.2.1 Development of Electric Drones	31
4.2.2 Increasing Use of UAVs in Commercial Sector	31
4.2.3 No Fuel Emissions	32
4.2.4 Rising Usage of Drones for Industrial Applications	32
4.3 Restraints	33
4.3.1 Issues Associated with Data Processing	33
4.3.2 Limited Flight Range & Endurance	33
4.4 Opportunities	34
4.4.1 3D-Printed Drones	34
4.4.2 Introduction of Solar Powered Drones	34
4.4.3 Usage of Drones in the Energy Sector	34
4.5 Challenges	35
4.5.1 Prone to Cyber Attacks	35
4.5.2 Regulatory Norms & Safety Issues	35
5 Market Factor Analysis	
5.1 Supply Chain	37
5.2 Porter's Five Forces Model	38
5.2.1 Threat of New Entrants	38
5.2.2 Bargaining Power of Suppliers	39
5.2.3 Bargaining Power of Buyers	39
5.2.4 Threat of Substitutes	39
5.2.5 Intensity of Rivalry	39
6 Global Drones Market, By Type	
6.1 Overview	41
6.1.1 Fixed-Wing	41
6.1.2 Multi Rotor	41
7 Global Drones Market, By Capability	
7.1 Overview	44
7.1.1 Passenger Drones	44
7.1.2 Cargo Drones	44
8 Global Drones Market, By Capacity	
8.1 Overview	47
8.1.1 Up to 100 kg	47
8.1.2 Over 100 kg	47
9 Global Drones Market, By Application	
9.1 Overview	50
9.1.1 Agriculture	52
9.1.1.1 Field Mapping	53
9.1.1.2 Crop Scouting	53
9.1.1.3 Crop Spraying	53
9.1.1.4 Agricultural Photography	53
9.1.1.5 Precise Agriculture Management	54
9.1.1.6 Agriculture Insurance Inspection	54
9.1.1.7 Others	54
9.1.2 Industry	54
9.1.2.1 Construction	55
9.1.2.2 Oil & Gas	56
9.1.2.3 Mining	56
9.1.2.4 Logistics	56
9.1.2.5 Aviation	56
9.1.2.6 Telecom	56
9.1.2.7 Others	56
10 Global Drones Market, By Component	
10.1 Overview	58
10.1.1 Airframe	58
10.1.2 Payload	58
10.1.3 Guidance Navigation & Control	58
10.1.4 Propulsion System	58
11 Global Drones Market, By Region	
11.1 Overview	61
11.2 North America	62
11.2.1 U.S.	67
11.2.1.1 U.S. by Type	67
11.2.1.2 U.S. by Capability	67
11.2.1.3 U.S. by Capacity	67
11.2.1.4 U.S. by Application	68
11.2.1.5 U.S. by Component	68
11.2.2 Canada	69
11.2.2.1 Canada by Type	69
11.2.2.2 Canada by Capacity	69
11.2.2.3 Canada by Application	69
11.2.2.4 Canada by Component	70
11.3 Asia Pacific	71
11.3.1 China	76
11.3.1.1 China by Type	76

11.3.1.2 China by Capability	76
11.3.1.3 China by Capacity	77
11.3.1.4 China by Application	77
11.3.1.5 China by Component	77
11.3.2 Japan	78
11.3.2.1 Japan by Type	78
11.3.2.2 Japan by Capability	78
11.3.2.3 Japan by Capacity	79
11.3.2.4 Japan by Application	79
11.3.2.5 Japan by Component	79
11.3.3 South Korea	80
11.3.3.1 South Korea by Type	80
11.3.3.2 South Korea by Capability	80
11.3.3.3 South Korea by Capacity	80
11.3.3.4 South Korea by Application	81
11.3.3.5 South Korea by Component	81
11.3.4 India	81
11.3.4.1 India by Type	82
11.3.4.2 India by Capacity	82
11.3.4.3 India by Application	82
11.3.4.4 India by Component	83
11.3.5 Australia	83
11.3.5.1 Australia by Type	83
11.3.5.2 Australia by Capacity	84
11.3.5.3 Australia by Application	84
11.3.5.4 Australia by Component	84
11.3.6 Rest of Asia Pacific	85
11.3.6.1 Rest of Asia Pacific by Type	85
11.3.6.2 Rest of Asia Pacific by Capability	85
11.3.6.3 Rest of Asia Pacific by Capacity	86
11.3.6.4 Rest of Asia Pacific by Application	86
11.3.6.5 Rest of Asia Pacific by Component	86
11.4 Middle East & Africa	87
11.4.1 UAE	91
11.4.1.1 UAE by Type	92
11.4.1.2 UAE by Capability	92
11.4.1.3 UAE by Capacity	92
11.4.1.4 UAE by Application	93
11.4.1.5 UAE by Component	93
11.4.2 Saudi Arabia	93
11.4.2.1 Saudi Arabia by Type	94
11.4.2.2 Saudi Arabia by Capability	94
11.4.2.3 Saudi Arabia by Capacity	94
11.4.2.4 Saudi Arabia by Application	95
11.4.2.5 Saudi Arabia by Component	95
11.4.3 Israel	95
11.4.3.1 Israel by Type	96
11.4.3.2 Israel by Capability	96
11.4.3.3 Israel by Capacity	96
11.4.3.4 Israel by Application	97
11.4.3.5 Israel by Component	97
11.4.4 Rest of Middle East & Africa	97
11.4.4.1 Rest of Middle East & Africa by Type	98
11.4.4.2 Other Countries by Capability	98
11.4.4.3 Rest of Middle East & Africa by Capacity	98
11.4.4.4 Rest of Middle East & Africa by Application	99
11.4.4.5 Rest of Middle East & Africa by Component	99
12 Competitive Landscape	
12.1 Competitive Scenario	101
12.2 Market Share Analysis	101
12.3 Mergers & Acquisitions	102
13 Company Profiles	
13.1 Developers of drones for Agriculture & Industrial Applications	104
13.1.1 AeroVironment, Inc.	104
13.1.1.1 Company Overview	104
13.1.1.2 Financial Overview	104
13.1.1.3 Product Offerings	105
13.1.1.4 Key Developments	106
13.1.1.5 SWOT Analysis	106
13.1.1.6 Key Strategy	106
13.1.2 AgEagle Aerial Systems	107
13.1.2.1 Company Overview	107
13.1.2.2 Financial Overview	107
13.1.2.3 Product Offerings	107
13.1.2.4 Key Developments	107
13.1.2.5 SWOT Analysis	108
13.1.2.6 Key Strategy	108
13.1.3 Agribotix LLC	109
13.1.3.1 Company Overview	109
13.1.3.2 Financial Overview	109
13.1.3.3 Product Offerings	109
13.1.3.4 Key Developments	109
