### Description:

**Market overview:** The Data Center Outsourcing & Infrastructure Utility Services is the most emerging service that helps various industries. This is highly used for computing and networking infrastructure that is used in the IoT operating software. The Data Center Outsourcing & Infrastructure Utility Services Market Analysis consists of various security systems, built-in cooling systems, flood, and fire protection. This system is highly used for enhancing the enterprises that offer excellent features like a better storage facility, uninterrupted UPS and board cooling, etc.

The major use of the Data Center Outsourcing & Infrastructure Utility Services is resistance to rough weather. Data Center Outsourcing & Infrastructure Utility Services have multiple factors that make major growth in the market. This is widely used for the high level of computing and networking infrastructure that is used in the IoT structure. According to the study report of the Data Center Outsourcing & Infrastructure Utility Services Market, the market is expected to grow in the forecast period of 2030. As per the market analyst, there is an expected growth of USD 53.6 Billion by 2030, with a 14.20% of CAGR up to 2030.

The market report of Data Center Outsourcing & Infrastructure Utility Services Market Analysis indicates the explosive digital needs, rising complexities in the IT infrastructure and all. The report also covers the factors like major developments in the industry, factors that fuel up the market, and increasing complexities. The report also covers the market segmentation on the basis of region and other factors. The Data Center Outsourcing & Infrastructure Utility Services Industry report is prepared by the key market analyst after determining the current and past scenario of the market. **COVID 19 Analysis:** The covid 19 pandemic brings multiple tough situations for the leading industries, startup businesses as well as in the lives of people. It creates many issues that affect the market growth and also affect the sales chain of the market. Due to the covid pandemic, many investors refused to invest in this. There are some industries like Data Center Outsourcing & Infrastructure Utility Services Business that notice huge growth in the period of covid while some are there who noticed a downfall in the sales rate during the covid period. Well, the Data Center Outsourcing & Infrastructure Utility Services Market is still growing in the situation of covid. The market has been battling with various factors to make people's lives easy and smooth. Because of the key players, the market is in a stable condition and follows all the advanced ways to make growth in the near future. **Market Dynamics:Major Drivers of the Market** The key players of the Data Center Outsourcing & Infrastructure Utility Services Market Trends search for the various factors that can affect the market growth positively. The Data Center Outsourcing & Infrastructure Utility Services are used in various industries, and it plays an important role in the various retail sectors. The Data Center Outsourcing & Infrastructure Utility Services Market Trends drivers that make growth in the market are energy issues, sustainable infrastructure solutions, disaster management solutions, and green data center solutions. Some other factors like infrastructure utility service fuel up the market growth. **Significant Opportunities for The Market:**The Data Center Outsourcing & Infrastructure Utility Services Business has a great opportunity in the future, as per the market analyst. The growing popularity of the internet and awareness among people regarding IoT increases the opportunity to the market. The Data Centre Outsourcing & Infrastructure Utility Services enhance the enterprises and multiple industries by offering them the services like better storage systems, uninterrupted UPS, board cooling, etc. Without this, the industries may face multiple barriers to their growth. It creates resistance to rough weather, and therefore, there is a huge chance of growth in the forecast period of 2023.

**Market Restraints:**Like major growth factors, there are some major restraints also that hinder the Data Center Outsourcing & Infrastructure Utility Services Industry growth. There are many cases where the market is going down because of these restraints. These major restraints are a lack of awareness and security issues. Well, the key players are still working to eliminate these restraints for increasing the sales rate. Apart from that, people usually go through a rapid change of advanced technology, yet another possible reason that might hinder the market growth. **Market Growth Challenges:**The Data Center Outsourcing & Infrastructure Utility Services Industry is battling with multiple hindering factors to get a better position in the industry. This is used in multiple sectors, and that's why there is a huge chance of growth. But still, there are some barriers like lack of knowledge among people that lower down the growth. Some factors create a regional and linguistic barrier.To deal with this, the Data Center Outsourcing & Infrastructure Utility Services industry needs more and more key players and investors for the growth of the market. They put multiple efforts to promote the market for increasing its sales. Apart from this, the key players also considering the prices and make them affordable so that every business can afford this. So, these are some major growth challenges that the key players should overcome from this.**Cumulative Growth Analysis:**The demand for Data Centre Outsourcing & Infrastructure Utility Services is always higher because of the wider possibilities. Even though there are some market challenges, but still the market has facing growth in the recent period. Keeping the efforts in mind, the analyst has determined the growth for the forecast period with a CAGR of 13%. **Segment Overview:**The Datacenter outsourcing & infrastructure utility services market is segmented on the basis of service type and vertical, and the further sub segmentations are:**Segmentation based on service type:**The Datacenter outsourcing & infrastructure utility services market is divided on the basis of service type that includes professional service and support and maintenance service. Here the professional service is further sub-segmented into application performance monitoring, systems management managed to host, database administration managed storage, etc.**Segmentation based on vertical:**The Data Center Outsourcing & Infrastructure Utility Services is segmented into the vertical those include BFSI, Healthcare, IT & Telecommunication, Government, Travels & Logistics, and Others. **Regional Analysis:**Based on the regional classification, the Datacenter outsourcing & infrastructure utility services market is also segmented into multiple regions, and those are North America, the Asia Pacific region, Rest of the world. North America is one of the leading players in this market, which holds the largest market share. As the

data centers are highly efficient and affordable, therefore it is the reason for boosting the data center outsourcing & infrastructure utility services market. After North America, the countries like Europe and Asia-Pacific region have a scope to grow significantly in the data center outsourcing & infrastructure utility services market by the forecast period 2023.**Key Players of the Datacenter outsourcing & infrastructure utility services market**The prominent players in the Data Center Outsourcing & Infrastructure Utility Services Market Report are:

- Atos (France)
- Accenture Plc (Ireland)
- Capgemini SE (France)
- Cognizant (U.S.)
- Fujitsu Ltd (Japan)
- HCL Technologies Limited (India)
- IBM (U.S.)
- Infosys Limited (India)
- Tata Consultancy Services Limited (India)
- Tech Mahindra Limited (India)

**Research Methodologies:**The global data center outsourcing & infrastructure utility services market report is prepared by the key analyst with the help of market key players. The key players of the market determine the market growth for the forecast period by determining the factors like past and present market scenario, adoption of the market among people, and all. They determine this market rate or CAGR by using different qualitative and quantitative methods. They have gone through the multiple macros and micro-economical factors that affect the market growth. They use some advanced technology and equipment to analyze the market growth like Swot analysis and Porter's five force model etc. **Report Overview:**The global data center outsourcing & infrastructure utility services market overview is as follows:

- Market Overview
- COVID 19 Analysis
- Market Dynamics
- Segment Overview
- Regional Analysis
- Competitive Landscape
- Research methodologies

The Data Center Outsourcing & Infrastructure Utility Services Market Report depicts the market insight value that focuses upon highlighting the growth aspects. The market segmentation highlights upon global data center outsourcing & infrastructure utility services report analysis are as follows:**Data Center Outsourcing & Infrastructure Utility Services Market by Organization Size:**

- Small and Medium Size Organization
- Large Organization

#### **Data Center Outsourcing & Infrastructure Utility Services Market by Components:**

- Hardware
- Software
- Services

#### **Data Center Outsourcing & Infrastructure Utility Services Market by Vertical:**

- BFSI
- Healthcare
- IT & Telecommunication
- Government
- Travels & Logistics
- Others

#### **Data Center Outsourcing & Infrastructure Utility Services Market by Servers:**

- Rack Servers

- Virtual Servers
- Hybrid Servers

## Table of Content:

## Contents

### TABLE OF CONTENTS

#### 1 MARKET INTRODUCTION

##### 1.1 INTRODUCTION

##### 1.2 SCOPE OF STUDY

##### 1.2.1 RESEARCH OBJECTIVE

##### 1.2.2 ASSUMPTIONS

##### 1.2.3 LIMITATIONS

##### 1.3 MARKET STRUCTURE

#### 2 RESEARCH METHODOLOGY

##### 2.1 RESEARCH TYPE

##### 2.2 PRIMARY RESEARCH

##### 2.3 SECONDARY RESEARCH

##### 2.4 FORECAST MODEL

##### 2.4.1 MARKET DATA COLLECTION, ANALYSIS & FORECAST

##### 2.4.2 MARKET SIZE ESTIMATION

#### 3 MARKET DYNAMICS

##### 3.1 INTRODUCTION

##### 3.2 MARKET DRIVERS

##### 3.3 MARKET CHALLENGES

##### 3.4 MARKET OPPORTUNITIES

##### 3.5 MARKET RESTRAINTS

#### 4 EXECUTIVE SUMMARY

#### 5. MARKET FACTOR ANALYSIS

##### 5.1 PORTER'S FIVE FORCES ANALYSIS

##### 5.2 SUPPLY CHAIN ANALYSIS

#### 6 DATA SERVICE OUTSOURCING & INFRASTRUCTURE UTILITY SERVICES MARKET, BY SEGMENTS

##### 6.1 INTRODUCTION

##### 6.2 MARKET STATISTICS

##### 6.2.1 BY COMPONENTS

##### 6.2.1.1 HARDWARE

##### 6.2.1.2 SOFTWARE

##### 6.2.1.3 SERVICE

##### 6.2.1.3.1 PROFESSIONAL SERVICE

##### 6.2.1.3.1.1 SYSTEMS MANAGEMENT

##### 6.2.1.3.1.2 APPLICATION PERFORMANCE MONITORING

##### 6.2.1.3.1.3 MANAGED HOSTING

##### 6.2.1.3.1.4 MANAGED STORAGE

##### 6.2.1.3.1.5 DATABASE ADMINISTRATION

##### 6.2.1.3.2 SUPPORT AND MAINTENANCE SERVICE

##### 6.2.2 BY SERVER

##### 6.2.2.1 RACK SERVERS

##### 6.2.2.2 VIRTUAL SERVERS

##### 6.2.2.3 HYBRID SERVERS

##### 6.2.3 BY ORGANIZATION SIZE

##### 6.2.3.1 SMALL AND MEDIUM ORGANIZATIONS

##### 6.2.3.2 LARGE ORGANIZATIONS

##### 6.2.4 BY VERTICAL

##### 6.2.4.1 BFSI

##### 6.2.4.2 HEALTHCARE

##### 6.2.4.3 IT & TELECOMMUNICATION

##### 6.2.4.4 GOVERNMENT

##### 6.2.4.5 TRAVELS & LOGISTICS

##### 6.2.4.6 OTHERS

##### 6.2.5 BY GEOGRAPHY

##### 6.2.5.1 NORTH AMERICA

##### 6.2.5.2 EUROPE

##### 6.2.5.3 ASIA-PACIFIC

##### 6.2.5.4 REST OF THE WORLD

#### 7 COMPETITIVE ANALYSIS

##### 7.1 MARKET SHARE ANALYSIS

##### 7.2 COMPANY PROFILES

##### 7.2.1 ATOS (FRANCE)

##### 7.2.2 ACCENTURE PLC (IRELAND)

##### 7.2.3 CAPGEMINI SE (FRANCE)

##### 7.2.4 COGNIZANT (U.S.)

##### 7.2.5 FUJITSU LTD (JAPAN)

##### 7.2.6 HCL TECHNOLOGIES LIMITED (INDIA)

##### 7.2.7 IBM (U.S.)

##### 7.2.8 INFOSYS LIMITED (INDIA)

##### 7.2.9 TATA CONSULTANCY SERVICES LIMITED (INDIA)

##### 7.2.10 TECH MAHINDRA LIMITED (INDIA)

##### 7.2.11 OTHERS
