

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.

Description:

Smart Fleet Management Market Scenario

Smart fleet management, essentially, a system through which operators keep track of variable factors such as fuel consumption, maintenance and route management. Smart fleet management systems provide a dedicated server for fleet data and security in a single system, which enables operators to analyze and make informed and cost effective decisions or enhance safety. Such availability of integrated data through smart fleet management systems attract customers, toward these solutions, across the globe. With the entire automotive industry pushing for higher fuel efficiency in vehicles combined with high speed networks, the market for smart fleet management is expected to witness significant growth during the forecast period. Rising demand for connectivity and government regulations are expected to augment the smart fleet management market. Reduction of both, transportation cost and operating cost has come forth as a major trend in the automotive industry, which encourages the players in the smart fleet management market.

High costs associated with the smart fleet management systems is expected act as a major hindrance for the market. Additionally, continuous increase in fleet sizes and travel routes, successively, result in higher complexity of the system, which is expected to act as another major restraint for the smart fleet management market.

Regional Analysis

The Asia Pacific region is expected to provide lucrative opportunities to layers in the smart fleet management market. Stringent government regulations, combined with improving transportation facilities and infrastructure are expected to aid the growth of the smart fleet management market in this region. Government authorities in countries such as India and China encourage original equipment manufacturers to implement such systems in vehicles, mainly to enhance driver safety. The market for smart fleet management is expected to thrive in this region. Additionally, improving socio-economic conditions in countries such as India, Thailand, and Indonesia have resulted in the growth of demand for premium segment fleets, which positively impacts the market growth during the forecast period.

Other regions such as North America and Europe are also poised for rapid growth. Existence of sophisticated technology and major manufacturers, provides solid groundwork for the smart fleet management firms in this region. Established automotive industry also aids the growth of the market in these regions. Rising number of commercial fleets in Europe and United States, widen the customer base to accommodate major smart fleet management system manufacturers. Significant technological development and research and development activities in the North America and Europe are expected to provide high opportunities for the smart fleet management market to rapidly growth during the forecast period.

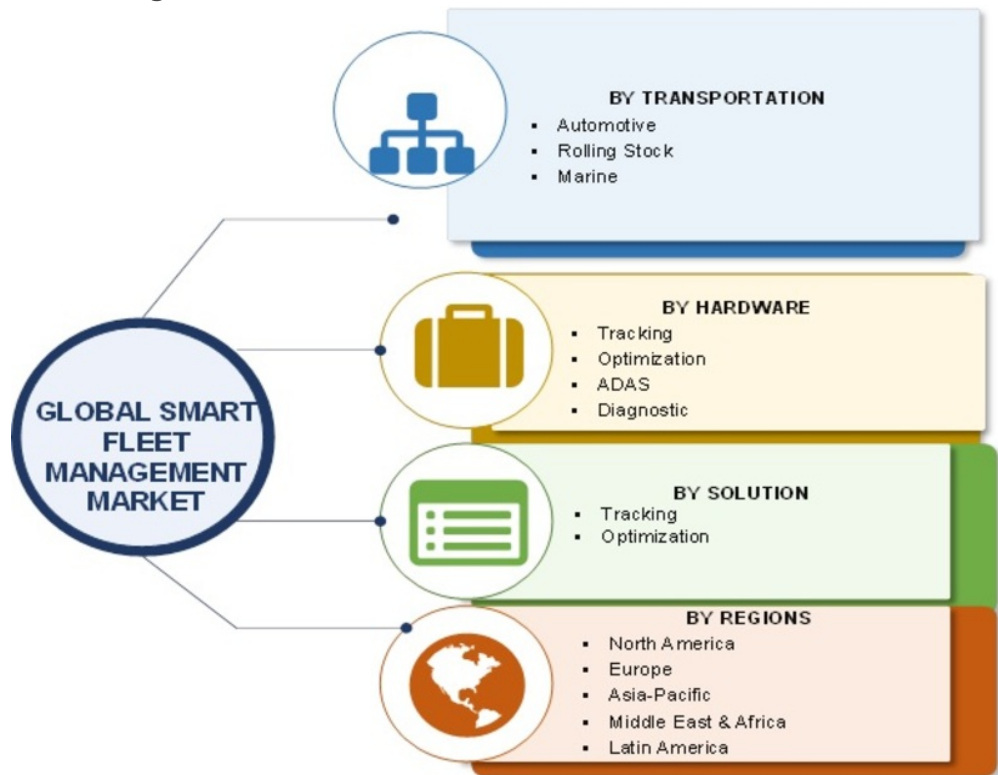

Key Players

The key players of global smart fleet management market are -

Harman International Industries, Inc., Robert Bosch GmbH., Siemens AG, Denso Corporation, IBM Corporation, Continental AG, Cisco Systems, Inc., Sierra Wireless, Inc., Calamp Corp., OTTO Marine Ltd., Precious Shipping Co. Ltd., and Globecom Systems,

Inc. In 2016, these companies accounted for a share of XX% of the global market.

Market Segmentation

Intended Audience

- Distributer & Supplier companies
- End Users
- Consultants and Investment bankers
- Government as well as Independent Regulatory Authorities

Product Analysis

- Product matrix which gives a detailed comparison of the market for different recycled product types

Additional Information

- Regulatory Landscape
- Pricing Analysis
- Macroeconomic Indicators

Geographic Analysis

- Geographical analysis across 15 countries

Company Information

- Profiling of 10 key market players
- In-depth analysis including SWOT analysis, and strategy information of related to report title
- Competitive landscape including emerging trends adopted by major companies

The report for **Global Smart Fleet Management Market** of **Market Research Future** comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

Infographic Summary:

Table of Content:

Contents	
Table of Contents	
1	Introduction
1.1	Definition
1.2	Scope of Study
1.3	Research Objective
1.4	Assumptions & Limitations
1.5	Market Structure:
2	Research Hardwareology
2.1	Research Process
2.2	Primary Research
2.3	Secondary Research
3	Market Dynamics
3.1	Drivers
3.2	Restraints
3.3	Opportunities
3.4	Challenges
3.5	Macroeconomic Indicators
4	Market Factor Analysis
4.1	Porter's five forces model
4.1.1	Bargaining Power of suppliers
4.1.2	Bargaining Power of Customer
4.1.3	Intensity of Competitor's
4.1.4	Threat of New Entrants
5	Smart Fleet Management, By Solution
5.1	Introduction
5.1.1	Tracking
5.1.2	Optimization
6	Smart Fleet Management, By Transportation
6.1	Introduction
6.1.1	Automotive
6.1.2	Rolling Stock
6.1.3	Marine
7	Smart Fleet Management, By Hardware
7.1	Introduction
7.1.1	Tracking
7.1.2	Optimization
7.1.3	ADAS
7.1.4	Diagnostic
8	Smart Fleet Management, By Region
8.1	Introduction
8.1.1	North America
8.1.1.1	US
8.1.1.2	Canada
8.1.2	Europe
8.1.2.1	Germany
8.1.2.2	France
8.1.2.3	UK
8.1.2.4	Italy
8.1.2.5	Spain
8.1.2.6	Rest of Europe
8.1.3	Asia Pacific
8.1.3.1	Japan
8.1.3.2	China
8.1.3.3	India
8.1.3.4	South Korea
8.1.3.5	Rest of Asia Pacific
8.1.4	Middle East & Africa
9	Company Landscape
9.1	Introduction
9.1.1	Mergers Acquisitions
9.1.2	Collaborations
9.1.3	Release/New Product Launches
9.1.4	Other (Expansion, Updates, Partnership)
10	Company Profile
10.1	Harman International Industries
10.1.1	Company Overview
10.1.2	Product/Business Segment Overview
10.1.3	Financials
10.1.4	Key Developments
10.2	Robert Bosch GmbH
10.2.1	Overview
10.2.2	Product/Business Segment Overview
10.2.3	Financials
10.2.4	Key Developments
10.3	Siemens AG
10.3.1	Overview
10.3.2	Product/Business Segment Overview
10.3.3	Financials
10.3.4	Key Developments
10.4	Denso Corporation
10.4.1	Overview
10.4.2	Product/Business Segment Overview
10.4.3	Financials

10.4.4	Key Developments	
10.5	IBM Corporation	
10.5.1	Overview	
10.5.2	Product/Business Segment Overview	
10.5.3	Financials	
10.5.4	Key Developments	
10.6	Continental AG	
10.6.1	Overview	
10.6.2	Product/Business Segment Overview	
10.6.3	Financials	
10.6.4	Key Developments	
10.7	Cisco Systems	
10.7.1	Overview	
10.7.2	Product/Business Segment Overview	
10.7.3	Financials	
10.7.4	Key Developments	
11	Appendix
