## Description:

### Global Emergency Department Information System Market Overview

Emergency Department Information System Market Size was valued at USD 0.34 Billion in 2023. The Emergency Department Information System market industry is estimated to grow from USD 0.39 Billion in 2024 to USD 1.04 Billion by 2032, exhibiting a compound annual growth rate (CAGR) of 13.02% during the projected timeframe (2024 - 2032). Product releases, research and development by significant critical players, and increasing data sharing & trustworthiness are the key market drivers contributing to market growth and development.

### Emergency Department Information System Market Trends

- The growing Data sharing and trustworthiness are driving the market growth.

The rising Data sharing and trustworthiness drive market CAGR for emergency department information systems. It guarantees effective operation, interface, and correct incorporation of fresh information systems. The system in question is a collective effort to manage the process and collect the necessary particular data. The emerging and established world economies are focused on improving healthcare systems by allocating budgetary resources and investing in development and research.

Additionally, the population is growing rapidly, which increases the demand for various hospitals. Furthermore, there is an increasing need for technology that aids in data driving. Because of numerous health issues and volatility, the ED Information Systems Marketplace for health insurance is expanding. These will be excellent market prospects in the future. The EDIS industry has connected and interacted with past technologies within healthcare facilities and data-gathering systems. These methods include applying pulse-checking devices, automatic monitoring indicators, heart rate tracking, and much more. There are several benefits to using the agency's database. These include data sharing and dependability, portability and scalability, and interoperability, all contributing to the worldwide market's growth.

The spread of the new coronavirus has harmed the development, production of goods, and management units of many businesses and caused the world's rising economies to doubt their medical systems. Many countries throughout the world underwent both temporary and indefinite lockdowns. The shutdown and its circumstances negatively influenced several industries and, as a result, the financial system. As a result of expansion and a lack of adequate medications and processes, government intervention plays a significant role in raising the cost of healthcare. Furthermore, the government is adjusting to using data technology, such as the emergency department information system industry.

For instance, as per UNs' World Population Prospects, there were 962 million persons over 60 in 2017. This represents around 13% of the population that requires ED visits, hospital technology, and other services. Thus, demand for Emergency Department Information Systems is anticipated to increase throughout the projected timeframe due to the rising Data sharing and trustworthiness. Thus, driving the Emergency Department Information System market revenue.

### Emergency Department Information System Market Segment Insights

## Emergency Department Information System Component Insights

The Emergency Department Information System market segmentation, based on components, includes Software, Services, and Hardware. Services dominated the market, accounting for 42% of market revenue (USD 0.1 Billion) in 2022 because it is utilized by rescue teams to track patients in critical care departments and assist with other areas of the ED workflow is known as an emergency room information system (EDIS).

## Emergency Department Information System Delivery Mode Insights

The Emergency Department Information System market segmentation, based on Delivery Modes, includes Software-as-a-Services (SaaS) and On-Premises. The software-as-a-services (SaaS) category generated the highest market revenue of about 63% (USD 0.2 billion) in 2022. This is primarily because the SAAS system accumulates expertise; it automatically schedules clients and amenities and provides warning alerts to certain administrative personnel.

### Figure 1 Emergency Department Information System Market, by Delivery Mode, 2022 & 2032 (USD Billion)

Emergency Department Information System Market, by Delivery Mode, 2022 & 2032

## Emergency Department Information System Application Insights

The Emergency Department Information System market segmentation, based on application, includes Clinical Functionality, Patient Entry, Clinical Documentation, CPOE, and Result Reporting. The CPOE segment dominated the market, accounting for 39% of market revenue (USD 0.1 Billion) in 2022. It is a piece of software that aids in entering medical prescriptions into computer networks in outpatient and hospital settings.

## Emergency Department Information System Regional Insights

By region, the research provides market insights into North America, Europe, Asia-Pacific, and the Rest of the World. The North American Emergency Department Information System market will dominate during the projected timeframe, owing to the significant surge in producers, population growth, government sectors offering significant assistance, and the expansion of the healthcare industry, which will boost the market growth in the North American area.

Furthermore, the major countries studied in the market report are the US, Canada, German, France, the UK, Italy, Spain, China, Japan, India, Australia, South Korea, and Brazil.

### Figure 2 Emergency Department Information System Market Share by Region 2022 (USD Billion)

Emergency Department Information System Market Share by Region 2022
---

*Source Secondary Research, Primary Research, MRFR Database, and Analyst Review*

Europe region's Emergency Department Information System market accounts for the second-highest market share as There has been a significant advancement in the technology employed in the healthcare industry. Further, the German Emergency Department Information System market holds the largest market share, and the UK Emergency Department Information System market is expected to grow and expand significantly in the European region during the projected timeframe.

The Asia-Pacific Emergency Department Information System Market is expected to grow quickly during the projected timeframe. The fast expansion of institutions and the swift shifts that are taking place in the health industry. In addition, hospitals are heavily utilizing IT specialists in the healthcare sectors, which are approaching enormous prospects supporting worldwide market expansion. Moreover, China's Emergency Department Information System market dominates the market share, and the Indian Emergency Department Information System market is expected to expand and grow steadily in the Asia-Pacific region during the projected timeframe.

## Emergency Department Information System Key Market Players & Competitive Insights

Leading market players invested heavily in research and Development (R&D) to scale up their manufacturing units and develop technologically advanced solutions, which will help the Emergency Department Information System market grow worldwide. Market participants are also undertaking various organic or inorganic strategic approaches to strengthen and expand their footprint, with significant market developments including new product portfolios, contractual deals, mergers and acquisitions, capital expenditure, higher investments, and strategic alliances with other organizations. Businesses are also coming up with marketing strategies such as digital marketing, social media influencing, and content marketing to increase their scope of profit earnings. The Emergency Department Information System industry must offer cost-effective and sustainable options to survive in a highly fragmented and dynamic market climate.

Manufacturing locally to minimize operational expenses and offer aftermarket services to customers is one of the critical business strategies organizations use in the Emergency Department Information System industry to benefit customers and capture untapped market share and revenue. The Emergency Department Information System industry has recently offered significant advantages to the Healthcare IT industry. Moreover, more industry participants are utilizing and adopting cutting-

edge technology has grown substantially. Major players in the Emergency Department Information System market, including Allscripts Healthcare Solutions Inc. (US), MEDHOST (US), Optuminsight Inc., NextGen Healthcare, Siemens AG (US), T-System Inc (Germany), Epic Systems Corporation, Well Corporation (US), Medical Information Technology, Cerner Corporation (US), Meditech (US), McKesson Corporation (US) are attempting to expand market share and demand by investing in R&D operations to produce sustainable and affordable solutions.

HeartBeam, Inc. is a medical technology firm that primarily develops and commercializes ambulatory ECG systems for identifying and monitoring heart illness both within and outside of a healthcare institution environment. They announced a Business Associate Contract and a Clinical Trial Arrangement (CTA) with Phoebe Putney Healthcare System in March 2022 to perform a trial to test HeartBeam's ED Myocardial Infarction (MI) technology solution.

Aidoc is a developer of artificial intelligence (AI) medical devices that enable physicians to improve patient care and save costs. It will join forces with Novant Health in January 2022. Novant Health has taken proactive measures to enhance patient satisfaction while lowering the emergency room's length of stay through the use of Aidoc's AI system, which consists of seven FDA-cleared techniques for evaluation and announcement for individuals with severe illnesses.

#### **Key Companies in the Emergency Department Information System market include**

- Allscripts Healthcare Solutions Inc. (US)
- MEDHOST (US)
- Optuminsight Inc.
- NextGen Healthcare
- Siemens AG (US)
- T-System Inc (Germany)
- Epic Systems Corporation
- Well Corporation (US)
- Medical Information Technology
- Cerner Corporation (US)
- Meditech (US)
- McKesson Corporation (US)

#### **Emergency Department Information System Industry Developments**

**March 2022** HeartBeam, Inc. announced a Business Associate Contract and a Clinical Trial Arrangement (CTA) with Phoebe Putney Healthcare System in March 2022 to perform a trial to test HeartBeam's ED Myocardial Infarction (MI) technology solution.

**January 2022** Aidoc will join forces with Novant Health in January 2022. Novant Health has taken proactive measures to enhance patient satisfaction while lowering the emergency room's length of stay through the use of Aidoc's AI system, which consists of seven FDA-cleared techniques for evaluation and announcement for individuals with severe illnesses.

**In September 2015**, Mediamed Technologies was bought by Logicbec, a business analytics and performance evaluation supplier, in September 2015. There are additional software programs that are widely used in the healthcare business.

#### **Emergency Department Information System Market Segmentation**

##### **Emergency Department Information System Component Outlook**

- Software
- Services
- Hardware

##### **Emergency Department Information System Delivery Mode Outlook**

- Software-as-a-Services (SaaS)
- On-Premises

## Emergency Department Information System Application Outlook

- Clinical Functionality
- Patient Entry
- Clinical Documentation
- CPOE
- Result Reporting

## Emergency Department Information System Regional Outlook

- North America
  - US
  - Canada
- Europe
  - Germany
  - France
  - UK
  - Italy
  - Spain
  - Rest of Europe
- Asia-Pacific
  - China
  - Japan
  - India
  - Australia
  - South Korea
  - Australia
  - Rest of Asia-Pacific
- Rest of the World
  - Middle East
  - Africa
  - Latin America

### Table of Content:

Contents	
1 Introduction	
1.1 Definition	17
1.2 Scope Of The Study	17
1.3 Research Objective	17
1.4 Assumptions & Limitations	17
1.4.1 Assumptions	17
1.4.2 Limitations	17
1.5 Market Structure	17
2 Research Methodology	
2.1 Primary Research Methodology	19
2.2 Secondary Research Methodology	20
2.3 Market Size Estimation	22
2.4 Forecast Model	22

3	Market Dynamics	
3.1	Introduction	24
3.2	Drivers	24
3.2.1	Rising Geriatric Population	24
3.2.2	Increasing Number Of Hospitals	24
3.2.3	Rising Demand For Data-Driven Technologies	24
3.2.4	Rising Insurance Coverage	25
3.2.5	Rising Emergency Department (ED) Visits	25
3.3	Restraints	25
3.3.1	Risk Of Data Privacy	25
3.3.2	Lack Of Awareness, High Cost, And Low Adoption In Developing Countries	25
3.3.3	Lack Of Skilled Healthcare IT Professionals	25
3.4	Opportunity	26
3.4.1	Advancements In The Healthcare IT Sector	26
3.5	Mega Trend	26
3.5.1	Technological Trends	26
3.6	Macroeconomics	26
4	Market Factor Analysis	
4.1	Porters Five Forces Analysis	28
4.1.1	Bargaining Power Of Suppliers	29
4.1.2	Bargaining Power Of Buyers	29
4.1.3	Threat Of New Entrants	29
4.1.4	Threat Of Substitutes	29
4.1.5	Intensity Of Rivalry	29
4.2	Investment Opportunity Analysis	29
4.3	Value Chain Analysis	30
4.3.1	Inputs	31
4.3.2	Software Development Processes	31
4.3.3	Output	31
4.3.4	Marketing And Distribution	31
4.3.5	Post-Selling Services	31
5	Global Emergency Department Information System Market, By Component	
5.1	Introduction	33
5.1.1	Software	34
5.1.2	Services	35
5.1.3	Hardware	36
6	Global Emergency Department Information System Market, By Delivery Mode	
6.1	Introduction	38
6.1.1	Software-As-A-Services (SaaS)	39
6.1.2	On-Premise EDIS	39
7	Global Emergency Department Information System Market, By Application	
7.1	Introduction	41
7.1.1	Clinical Functionality	41
7.1.1.1	Patient Entry, Tracking, And Triage	42
7.1.1.2	Department-Centered Tracking	42
7.1.1.3	Clinical Documentation	42
7.1.1.4	Computer Provider Order Entry (CPOE)	42
7.1.1.5	Result Reporting	42
7.1.1.6	Discharge Management	43
7.1.2	Administrative Functions	43
8	Global Emergency Department Information System Market, By End-User	
8.1	Introduction	45
8.1.1	Large Hospitals	46
8.1.2	Medium-Sized Hospitals	46
8.1.3	Small Hospitals	47
9	Global Emergency Department Information System By Region	
9.1	Introduction	49
9.2	Americas	50
9.2.1	North America	52
9.2.1.1	US	54
9.2.1.2	Canada	56
9.2.2	South America	57
9.3	Europe	59
9.3.1	Western Europe	61
9.3.1.1	Germany	64
9.3.1.2	France	65
9.3.1.3	UK	66
9.3.1.4	Italy	67
9.3.1.5	Spain	69
9.3.1.6	Rest Of Western Europe	70
9.3.2	Eastern Europe	72
9.4	Asia-Pacific	74
9.4.1	Japan	77
9.4.2	China	78
9.4.3	India	79
9.4.4	Australia	81
9.4.5	South Korea	82
9.4.6	Rest Of Asia-Pacific	84
9.5	Middle East & Africa	86
